

1. On M100 it shows (2) Stainless Steel B-Vents with Flashing & Caps. Is this part of the scope at this time? If so, what are we connecting this to and how far down is it, and what is the size?

This will be part of the autoclave mechanical scope change order in the future

2. On M100 it shows (1) Stainless Steel Vent Cap. Is this part of the scope at this time? If so, what is this connecting to and at what elevation and what size?

This will be part of the autoclave mechanical scope change order in the future

3. Who has the controls for this building, is it still Trane?

Trane
